PROFESSIONAL SUMMARY

Senior Cloud & DevOps Engineer with 6+ years of experience engineering high-scale multi-cloud architecture.

TECHNICAL SKILLS

Languages: Python, Go, SQL, Bash, PowerShell, JavaScript, TypeScript

Cloud & DevOps: AWS, GCP, Azure, Terraform, Docker, Kubernetes, GitHub Actions, Linux, Databricks, F

Frameworks & Databases: FastAPI, Flask, PostgreSQL, Redis, Delta Lake, Snowflake, REST API

WORK EXPERIENCE

Technical Lead & Senior Cloud Engineer at Tech Solutions Inc.

2024 - Present | Remote / Florida

- Architected enterprise multi-cloud infrastructure spanning AWS, GCP, and Databricks using reusable Terraform modules.
- Deployed real-time automated data ingestion pipelines handling 50M+ daily records with zero downtime.
- Designed CI/CD release automation with GitHub Actions reducing deployment cycle time by 65%.

Senior DevOps Engineer at CloudScale Innovations

2021 - 2024 | Atlanta, GA

- Engineered resilient Kubernetes (EKS/GKE) clusters running containerized microservices with auto-scaling and health checks.
- Automated compliance, vulnerability scanning, and multi-region backup disaster recovery runbooks.
- Managed PostgreSQL and Redis caching layers improving query response times by 40%.

EDUCATION

University of Florida

Bachelor of Science in Computer Science & Information Technology

2017 - 2021 | GPA: 3.85

CERTIFICATIONS

- AWS Certified Solutions Architect - Professional (2024)
- Certified Kubernetes Administrator - CKA (2023)
- Databricks Certified Data Engineer Associate (2023)
